

News Release

Advent Cat Risk wins Physical Security and Privacy Assessment Contracts

Will form partnership with highly effective physical security consultant

For Immediate Release

West Hartford, Connecticut, January 4, 2015 ----- Advent Cat Risk LLC announced that they have expanded their core services to include physical security consulting service and take on a new partner that specializes in physical facility and operations risk assessments. This partner also has expertise in assessing and remediating risks for information security and privacy. Contracts to provide these services for existing clients have been signed and work will commence on January 15, 2015.

It is expected that this will fill a demand for outside expert assessments to bolster security within organizations and provide the back drop for addressing audit findings. Industry security concerns continue to grow with the rise in domestic and international security threats and actual breaches. Cutting edge for reputable and effective consulting experts is expected to grow significantly over the next five years.
